

Product Change

New versions of Purge connection with manual valve G 1/4 female (Art. No. 109684)

PCN-No.:

1903-02-00

Date:

2019/03/22

Description of Change:

Purge connection with manual valve G 1/4 female (Art. No. 109684) will be available in different versions with immediate effect.

Details:

The setup of new versions reduces the effort for handling and installation.

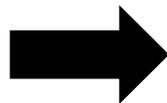

The new versions are available in brass and stainless steel. The stainless-steel version can be used in the food industry.

To protect perma systems against destruction, manual relubrication of the new versions is only possible when the valve is closed.

The previous version (Art. No. 109684) is replaced by Art. No. 113972 (brass nickel plated / 1:1 replacement for 109684) and 113973 (stainless steel).
