

Product Change

Material change M6 extensions (Art. No. 104858, 104859, 104860 and 104861)

PCN-No:

2105-01-00

Date:

2021/05/17

Description of Change:

Extensions M6 are changed from brass to stainless steel

Details:

The new M6 extensions allow easier assembly and provide increased mechanical strength.

The material is changed from brass to stainless steel.

The outer dimensions of the extensions do not change (see illustrations 1 and 2).

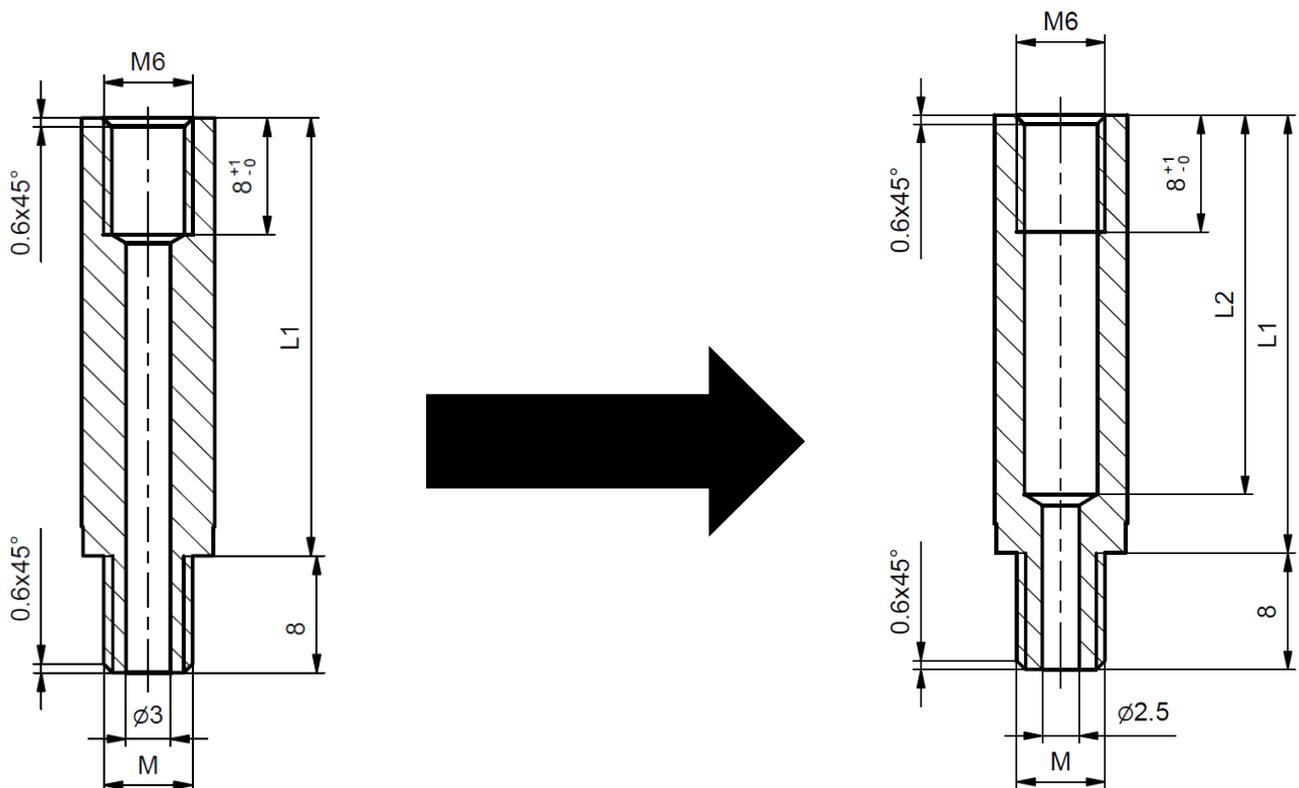

Illustration 1: Extension M6 old version made of brass (Art. No. 104858, Art. No. 104859, Art. No. 104860, Art. No. 104861)

Illustration 2: Extension M6 new version in stainless steel (Art. No. 116291, Art. No. 116292, Art. No. 116293 und Art. No. 116294)

The article numbers affected by the changes are shown in table 1.

Table 1: Changed article numbers (old and new version) with the new article designation.

Pos.	Art. No. (old)	Art. No. (new)	Description (new)
1	104858	116291	Extension 14 mm M6x0.75a x M6i (stainless steel)
